TECHNICAL SKILLS

Languages: Java (Core & Advanced), JavaScript ES6+, HTML5, CSS3

Web Frameworks & APIs: Spring Boot, Spring MVC, Angular, Bootstrap, REST API, RESTful Web Services, Servlets, JSP, JDBC, Maven

Databases: MySQL, JDBC, Database Management

Tools & IDE: Git, GitHub, VS Code, Eclipse IDE, Figma, Postman API Testing, Maven Build Tool

Design & UX: UI/UX Design, Figma, User Interface Design, Responsive Design, Mobile-First Design, Web Design

Core Concepts: OOP, Collections Framework, Multithreading, Exception Handling, MVC Architecture, SDLC, Agile Methodology, Full Stack Web Development, API Development

Security & Authentication: JWT Authentication, Session-based Authentication, Role-Based Access Control (RBAC)

PROFESSIONAL EXPERIENCE

Frontend Developer Intern / Web Developer – Edatic IT Support November 2024 – January 2025

Project: Gokul Coffee Web Application — www.gokulcoffee.com

- Developed fully responsive web application using HTML5, CSS3, JavaScript ES6+ for real-time production client with cross-browser compatibility
- Implemented responsive web design and mobile-first approach ensuring optimal user experience across devices
- Improved web application performance and usability through UI/UX best practices and code optimization
- Collaborated in Agile team environment using Git and GitHub for version control, branching, and code reviews
- Translated client business requirements into functional, user-friendly UI components and web interfaces

PROJECTS

Customer Support Ticketing System | Spring Boot · Angular · MySQL · JWT · RBAC · Full Stack Web Development

- Developed full-stack web application for managing customer queries, complaints, and service requests through centralized platform
- Implemented Role-Based Access Control (RBAC) with JWT authentication separating Customers, Support Agents, and Administrators
- Built RESTful APIs using Spring Boot for ticket creation, status tracking (Open, In Progress, Resolved, Closed), and user management
- Designed responsive Angular frontend with real-time ticket tracking, agent response system, and admin performance dashboard

Automated Pneumonia Detection Using Chest X-Ray Images | TensorFlow · CNN · Deep Learning · Python · Machine Learning

- Designed and developed deep learning image classification system using Convolutional Neural Network (CNN)
- Built and trained CNN model using Python and TensorFlow to classify chest X-ray images as Normal or Pneumonia
- Applied image preprocessing, data augmentation, and model evaluation to achieve high prediction accuracy

EDUCATION

B.E. in Computer Science and Design Engineering November 2022 – April 2026 **CGPA: 7.8 / 10.0**

Sethu Institute of Technology, Kariyapatti — Anna University (Autonomous) | Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Computer Networks, Software Engineering

HSC – S.B.K Boys Hr. Sec School, Aruppukkottai | 75.3% (May 2022) | SSLC – Govt High School, Thonugal | 75.2% (March 2020)

CERTIFICATIONS & TRAINING

Advanced Master Program – Java Full Stack Web Development, Zenjade Automation Technology Pvt Ltd (2026)

Spring Boot, Angular, REST APIs, MySQL, JWT Authentication, RBAC, MVC Architecture, Full Stack Web Development.

Java Programming Certification – Core & Advanced Java

Core Java: OOP, Collections Framework, Multithreading, Exception Handling, JDBC, File Handling | Advanced Java: Servlets, JSP, Web Application Development
